Chicamauga Letter.

Chicamauga, Ga., May 28, '98.

Dear Mr. Goddard:—

Will you kindly forward me this week's "TIMES" to the Y. M. C. A. Chattanooga. Camp life is just what one might imagine—rough and ready. Our tent is near the 4th. Ohio Reg't, we have accommodations for 400. There were over 1000 letters written in it on Wednesday. This is the usual number every day. This is a sample of the paper we are distributing free to soldiers, needles to say they are appreciative of our efforts. We have all kinds of parlor games for the soldiers. Last night Major Gen. Howard U. S. A. retired and Major Whittle addressed about 300 of the men. We are nicely situated, plenty of water and other conveniences. We are awakened every morning at 5:30 by the regimental band, music is a necessary part of Camp life. There is something inspiring in the sight of 1000 soldiers drilling and marching to the strains of a good band. We are meeting with much encouragement from the officers who applaud our efforts. There is a great work to be done among the soldiers, most likely we shall have Sankey with us in another week. The soldiers rise at 5:30 A. M. and retire at 9:15 P. M. They are taking life easy and evidently enjoying camp life. Hope you are meeting with success in organizing your company. Dr. Newcombe visited us on Thursday with a company of young ladies. Give my kind regards to your people. Accept the same yourself.

Yours Very Sincerely
Thomas Maguire.

A New Musical Invention!

IS IT AN ORGAN OR A PIANO?

ALL the objections to the Parlor Organ are at last done away with by this NEW INVENTION. It has Seven Full Octaves and exactly like a fine UPRIGHT PIANO. There are no stops in view nor any unsightly bellows pedals, but the instrument is worked by two pedals exactly like those on a piano, and a six-year old child can work them with ease. The delicacy and variety of its tones are wonderful and the touch so light and quick that the most difficult piano pieces can be executed thereon without difficulty. It is a marvelous improvement upon the parlor organ, and has created a great sensation in musical circles. The price not higher than that of an ordinary organ. This delightful instrument is manufactured by H. LEHR & Co., EASTON, PA., and is for sale by Mrs. F. A. Anderson, Maryville.
